

Masterclass webinar

Hormonal IUDs: Contraception and beyond

The Family Planning NSW Masterclass webinar **The Hormonal IUD: Contraception and beyond** is aimed at experienced GPs and nurses with an interest in reproductive and sexual health.

Expect a deep dive into the topic of hormonal IUDs and their use for a range of common clinical presentations including, but not limited to, contraception. The topic will be covered by clinical experts with a specialist knowledge of IUDs, and will include challenging case studies along with up-to-date best practice guidelines.

About our Masterclasses

Our Masterclasses will be brought to you by expert presenters selected for their specialist knowledge of each subject area, and will include with a variety of challenging case studies - delivered in a welcoming and collegiate online environment.

The activity ID is 184305

This course is equivalent to 2 hours to meet the Nursing and Midwifery Board of Australia (NMBA) requirements for CPD.

Dr Clea Anagnostopoulou BMed, BSc

Dr Clea Anagnostopoulou has worked in the field of sexual and reproductive health for over 20 years as a clinician and educator. She has a passion for providing patients access to a range of up to date available contraceptive options including Implanon, vasectomy and insertion and removal of IUDs.

She is currently the Family Planning NSW IUD insertion instruction coordinator and is actively involved in medical education and the training of GPs, medical students, and nurses. She is also the Medical Clinical coordinator at the Family Planning NSW Dubbo clinic and attends regional NSW outreach clinics to ensure women have access to quality women's health.

Dr Jessica Lowe MBBS (Hons), MPH & TM, FRANZCOG

Jessica Lowe is a gynaecologist whose primary focus is in the care of women with a wide-ranging spectrum of gynaecological conditions, particularly infertility and chronic pelvic pain caused by endometriosis, fibroids, tubal-ovarian pathologies, as well as menstrual and menopausal disorders.

After graduating with honours from Monash University medical school, she discovered her love and interest in women's health. She was selected into Obstetrics & Gynaecology training at the Royal Women's Hospital in Melbourne and graduated as Fellow of the Royal Australian & New Zealand College of Obstetricians and Gynaecologists in 2017.

Jessica completed a fellowship year at St. Thomas' Hospital in London and whilst there also gained experience in clinical research as a trial co-ordinator of a multicentre randomised trial. She also has an interest in global women's health and has been on a Medecins Sans Frontieres mission to Afghanistan and completed a Masters of Public Health including a public health internship at the South East Asia Regional World Health Organisation headquarters in India.
